

This poem was created by youth who participated in the 123 Belzhoover Place Study to describe a desired, safe place.

R Place

A place where we can chill.

A place where there's no fear.

A place where we can get a meal.

A place where people actually care how we feel.

A place where we can learn and feel safe.

A place where there's no worries.

A place where we care for each other.

A place where we can have our own opinions.

A place where we can be happy.

A place like no other.

A place for us.

R Place

(Ocheza, 123 Beltzhoover)
